Doctor Notes

Subjective Observations: Patient reports stable energy levels and consistent adherence to medication regimen. No new complaints reported.

Assesment: Patient's Type 2 Diabetes Mellitus is well-managed with current treatment plan. Lipid panel and HbA1c within target ranges. Hypertension controlled with Lisinopril.

Recommendations: Continue current medication regimen. Maintain diabetic-friendly diet and regular, mild exercise. Schedule annual eye exam with ophthalmologist.

Follow Up Instruction: Follow-up appointment scheduled in 3 months for routine check-up and medication review. Return sooner if any new symptoms arise.
