## Patient Demographics

Name: Christine

Ralph

Levy

DOB:

10/11/1980

Age: 44

Sex: Female

SSN: 472-69-7002

Hospital ID:

HOSP64344371

---

## Patient Lifestyle

Smoking Status: Never

Alcohol Consumption: Occasionally

Diet Preference: Diabetic-friendly

Exercise Habits: Mild

---

## Patient Vitals

Heart Rate: 72

Respiratory Rate: 16

Temperature Celsius: 36.8

Oxygen Saturation Percent: 98

Blood Pressure: 120/80 mmHg

Recorded Date: 26/10/2023

---

## Doctor Information

Doctor Name:

Mary

Johnson

DDS

Doctor Unique ID: DR66212A

---

## Doctor Notes

Subjective Observations: Patient reports occasional wheezing and shortness of breath, especially during exercise or exposure to allergens. Reports good adherence to medication regimen.

Assesment: Patient presents with well-controlled asthma. Pulmonary function tests are within normal limits. No signs of acute respiratory distress.

Recommendations: Continue current medication regimen. Avoid known allergens. Consider allergy shots if symptoms persist despite optimal medical management.

Follow Up Instruction: Follow-up appointment scheduled in 3 months. Contact clinic if experiencing worsening symptoms or acute asthma exacerbation.

---
